

Presentation Submission: Instructions and Guidelines

Round 3, IIT Madras BS Degree Programme

Please read this document carefully before preparing your slides. It sets out the slide limit, what is and is not allowed in your submission, and the final deadline. Submissions that do not follow these rules may be marked down or disqualified at the reviewers' discretion.

1 Slide Limit

- **Your presentation must not exceed 10 slides in total, including the title slide.**
- Use the prescribed presentation template shared separately as your starting point. Its sections (Title, Team Details, Idea/Approach, Novelty and Uniqueness, Technical Approach, Feasibility and Viability, Impact and Benefits, Research and References, Solution Summary) already fit within this limit.
- If you add or split a slide, the total must still stay within 10; extra slides beyond the limit will not be reviewed.

2 Originality: No AI-Generated Slides

- Your slides must reflect your own team's understanding of the problem, your own solution, and your own work, not content generated wholesale by an AI tool.
- Presentations found to be wholly or substantially AI-generated, in text, structure, or visuals, will be disqualified, regardless of your team's performance in earlier rounds.
- Reviewers may ask any team member to explain the reasoning, design choices, or technical details behind any slide during evaluation.

3 What You Can and Cannot Do

YOU CAN

- Use the prescribed template and edit its content directly.
- Include your own diagrams, wireframes, prototype screenshots, and charts.
- Use design tools such as PowerPoint, Canva, or Google Slides to format and polish your slides.
- Use spell-check, grammar, and translation tools to polish language.
- Cite research, data, or references you have genuinely reviewed.

YOU CANNOT

- Exceed 10 slides in your final submission.
- Generate slide text, visuals, or the deck itself primarily using AI tools and present it as your own work.
- Copy content from another team's submission or from unattributed external sources.
- Remove or skip the mandatory sections of the prescribed template.
- Submit after the deadline; late submissions will not be evaluated.

SUBMISSION DEADLINE **27 August 2026, 10:00 AM**
